

MORITZ SCHUMACHER

me@moritz-schumacher.com | linkedin.com/in/moritz-schumacher | Dortmund, Germany — open to relocate

Digital strategist from the green-hydrogen industry who builds enterprise AI in the Microsoft ecosystem: company-wide AI mandate (~30 use cases, 2 agents in production), a Power Platform tool that cut reporting effort by ~80%, and the company's first approved AI-development pilot — taken through boards and IT governance personally. Builds what he proposes.

PROFESSIONAL EXPERIENCE

thyssenkrupp nucera (SDAX-listed hydrogen electrolyzer manufacturer) | Dortmund

Project Manager AI, Digitalization

06/2026 – present

- **AI portfolio:** company-wide mandate to identify and implement AI use cases — ~30 identified through workshops with business functions, 2 in production, more in delivery.
- **Production AI agents:** service-inbox agent (reads, classifies, creates tickets, drafts replies — used by the entire service team); communications-inbox triage; RFQ-analysis agent that made product development data-driven for the first time.
- **LCOH platform:** moved the company's core techno-economic KPI from scattered Excel models into a web-based database tool — built AI-assisted (Claude Code) in the company's first approved AI-development pilot; an external build was quoted at several €100k.
- Presented "Data & AI Use Cases" to the Executive Board (Spring Strategy Days 2026).

Strategic Program Manager, Corporate PMO

01/2025 – 05/2026

- **Digital PMO:** replaced manual workstream reporting with an integrated Power Platform tool — database, input app, automated reminders, AI-drafted report texts (human in the loop). Cut repetitive reporting workload by ~80% (>32h → ~6h per cycle); in unchanged daily use today.
- Steered 4+ strategic workstreams (Partnership, Cost Down, Sales Scope, New Technology Venture) as sparring partner to senior leads; prepared the monthly executive steering meeting — later automated it end-to-end.

Executive Assistant to the CEO

06/2024 – 01/2025

- Led cross-functional CEO initiatives: cost and business-case analyses, technology benchmarks, M&A assessment, carve-out/legal-structure assessment incl. cost-benefit recommendation.
- Sparring on Board materials and C-level messaging; consolidated the company's scattered LCOH cost knowledge for a major-investor inquiry (Norges Bank).

Hubert Burda Media (media & tech group) | Munich, Hamburg, Bangkok

Management Trainee Program (rotations across 9 businesses)

09/2022 – 05/2024

- **AI venture building (BurdaForward):** pitched an own AI-personalization thesis right after the ChatGPT release, secured **€60k internal funding**, formed a distributed dev team and delivered prototype, business case and validated user problem.
- **XING / New Work SE:** ran the PMO for the largest product transformation to date (pivot to a jobs platform) — launched on time, a first for a project of this size there.
- Also: steered BurdaForward's Q4 profit program (seven-figure P&L impact); built M&A valuation models; developed a SEA market-entry strategy in Bangkok.

Conciso GmbH (IT consulting) | Dortmund

Working Student, Strategy & Operations

02/2018 – 06/2022

- Won a **€250k software-development project** in a solo pitch and managed it commercially end-to-end (contracts, subcontracted dev team, delivery steering) — as a working student, while the firm grew from ~10 to ~80 people.

Amazon Germany | Berlin

Business Development Intern, Pan-EU program

06/2021 – 08/2021

- Onboarded marketplace sellers to cross-border selling; met and exceeded targets.

AI PRODUCT PORTFOLIO (PERSONAL)

- Shipped **3 native iOS apps end-to-end** (Swift, AI-assisted with Claude Code): backends, databases, web versions, AI-API integrations (Gemini/Google Cloud), App Store review and releases — incl. cost-optimized image reuse via similarity caching.

LEADERSHIP (VOLUNTEER) & EDUCATION

Chairman, Fencing Division — State Training Center Hagen

10/2017 – 03/2021

- Led 4 coaches and 4 board members; restructured tournaments to a clearly positive result. Certified coach; former state champion (Westphalia).

Zeppelin University, Friedrichshafen — M.Sc. Corporate Management & Economics · Minor: M.A. Public

09/2020 – 06/2022

Management & Digitalization

BiTS Iserlohn — B.Sc. Business and Management Studies · Exchange: Monash University Malaysia (2019)

09/2017 – 07/2020
